5. Project description

(max. 2000 characters)

631 + 415 /2000 chr

Primary school Vladimir Nazor already implemented CBC project DENACO where the school was a Lead Beneficiary. The project was based on joint cooperation with cross-border school from Barcs. The implementation was very successful and in one part, was a motivation to continue cross-border cooperation but on a different topic and therefore with different partners in order to expand cooperation. Besides that, children from Vladimir Nazor School participated in CBC project VIBA YOUTH where the LB was the City of Virovitica, the founder of school. This project was also very successful and children enjoyed in its implementation.

By this project, young people, especially school children have a great opportunity to build a new shape of joint education and bilingualism through dancing, playing, singing, playing instruments, excursion, and many other ways that link Croatian and Hungarian people. Good starting point is also a very strong desire from all three schools to improve these links and encourage other to work on similar way as them.

By including children 7-15 years old, who are also the target group of the project, the joint activities of cross-border cities will create a common creative space in which young people will remove barriers for future cooperation and the creation of common social and cultural space in the future to increase tolerance and mutual acceptance.
